

Teen Pregnancy & Prevention *Partnership*

Dear Partnership Participant,

Thank you for attending Teen Pregnancy & Prevention Partnership professional development and networking meetings. We offer exciting professional development opportunities five times a year and a conference every other year covering topics such as the connection between teen pregnancy and school failure, prevention efforts within the Latina community, insightful youth panels, adolescent friendly health and immunization services, clergy views on faith and teen sexuality, and legal issues surrounding discussing sex with teens.

The work, progress, and mission of TPPP depend heavily on the dedication and commitment from the Partnership Board, our committee volunteers, and the participation of individuals within our community, like you! The membership fee for individuals and agency representatives provides financial support for TPPP's ongoing programming.

TPPP is excited to invite you and your agency to become TPPP members.

Membership is your opportunity to support and be involved in the efforts to prevent teen pregnancy. *Your membership makes you a part of a large community of concerned individuals who are making a positive impact on the prevention of teen pregnancy in our area.*

Member Benefits:

- reduced registration rates for our biannual conferences
- CEUs for professional development sessions (for a small fee)
- eligibility to serve on the TPPP Board
- networking and professional development opportunities
- invitations to partnership sponsored events
- Access to the "members only" section of our website (coming soon) which will feature additional best practices resources, extensive opportunities for networking, and targeted promotion of your community events to our member organizations

Membership with the Partnership means *more* opportunities to collaborate with other agencies, *more* "best practices" programs, *more* resource information, and *more* updates on current issues; all used toward preventing teen pregnancy throughout the St. Louis city and county areas. There are 2 different types of memberships:

- **Organization Members: annual membership fee is \$100**
(\$50 for organizations with annual budgets of \$250,000 or less, with documentation)
Up to 4 staff members are included; additional staff can be added for \$10 each.
- **Individual Members: annual membership fee is \$25**

Teen pregnancy affects us all, individually, as a community, and as a nation. The United States has the highest rate of teen pregnancy in the industrialized world. In St. Louis City, 17.7% of births are to teenage mothers, and the rate of sexually transmitted diseases in teens is among the highest in the nation. Join us in our mission to help prevent teen pregnancy and diseases by improving communication, education, and policies; staying informed; getting involved and raising awareness.
